DALLAS, TX
18 April 2011

The NUNCHUK® Precision Shaft was a part of yet another Top-5 finish on the 2011 PGA Tour with a 4th place finish in the Valero Texas Open. Adding to its early success on the PGA Tour, the NUNCHUK® shaft powered a Runner-Up finish at the Outback Steakhouse Pro-Am on the Champions Tour.

The 4th place finish in San Antonio added to the NUNCHUK's® thrilling win at the Bob Hope Classic and Top-5 finishes at the Farmers Insurance Open, Waste Management Phoenix Open and WGC - Cadillac Championship. The 4th place finisher at the Valero Texas Open continued his strong play one week after a T15 finish at The Masters - both with a NUNCHUK® shaft in his bag. Twelve NUNCHUKs® were put in play at the Valero Texas Open, including by one of the players that finished T15.

“PGA Tour players are increasingly looking to put the NUNCHUK® in their bags,” said Arnie Cunningham, nVentix® Golf PGA Tour rep. “I’ve been around the PGA Tour for 25 years. Its rare to see a new golf shaft technology achieve the enormous success the NUNCHUK® has seen in just over three months on the PGA Tour.”

At TPC Tampa Bay, the 2nd place finisher was swinging a NUNCHUK® shaft en route to a 9-under par, 204. He closed with a birdie to extend the Outback Steakhouse Pro-Am to a playoff.

“We are proud that PGA Tour and Champions Tour players continue to place their confidence in the NUNCHUK® shaft,” said Mike McCall, nVentix® Golf CEO. “With the 4th place and T15 finishes at the Valero

Texas Open, the NUNCHUK® is now up to 10 Top-15 finishes on the 2011 PGA Tour, including the win at the Bob Hope Classic and four other Top-5 finishes. The Runner-Up finish at the Outback Steakhouse Pro-Am is a testament to our growing Champions Tour presence.”

The revolutionary technology in the NUNCHUK’s® design allows the exact same shaft to be used by professionals and amateurs, men and women, juniors and seniors in their drivers, fairway woods and hybrids. “When you’ve got a NUNCHUK® in your bag, you’re playing what the pros play,” McCall added.

The NUNCHUK’s® unique Tri-Zonal Stability™ technology enables golfers all abilities to more consistently deliver LONG & ACCURATE driver, fairway wood and hybrid shots. Golfers of all ages and swing speeds who play the NUNCHUK® will see their shot dispersion narrow AND their spin rate reduced – thus increasing both accuracy and distance.

About nVentix® Golf

nVentix® Golf is a private company based in Dallas, Texas. For more information on nVentix® Golf and the NUNCHUK® Precision Golf Shaft, visit their Web site at www.nventix.com. You can also follow what’s new on Facebook.com – nVentix Golf – Nunchuk Precision Golf Shaft – and on Twitter – @nVentix.
